

## **Land-line Phone Numbers**

CodeRED® uses the 911 database provided by your local telephone company. Both listed and unlisted land-line phone numbers for residents and businesses are automatically included in the system. The City will use unlisted land-line phone numbers only for emergency situations that pose an imminent threat to life or health. Residents with caller ID can be sure to receive the City's time-sensitive and emergency alerts by adding (866) 419-5000 to their approved number list.
